

How to Read the Program

Who did he beat? Who had the mount? How fast did they go? What's his breeding? For the answers look to the past performances pages of this track program. It all might look intimidating at first, but this page will show you how to use the wealth of data supplied for each horse. **The past performance lines used in this How to Read are not actually associated with Burning Roma. The information in this How to Read page is provided as an example of all the components that can be found within a race program page in an effort to educate and inform the betting public. All past performances are provided by Equibase Company - the Thoroughbred Industry's Official Database for Racing Information.**
